

## How To Embed our Partner Counter Widget Into Your Website

Thank you for signing up as an Advocate for Race Online 2012!

To keep you up to date with the number of Race Online 2012 partners and help spread the word to similarly minded organisations we have created a Race Online 2012 partner ‘widget’.

The partner widget shows how many partners have currently joined up and how many people they aim to help start using the Internet. It also includes a call to action to “join us now” for other potential partners.

There are two versions of the widget available, which are shown below, one is x pixels wide and the other x. We would be grateful if you could include the counter widget in your website and help us spread the word:

The 180 pixel wide widget features the Race Online 2012 logo at the top. Below it, a green bar displays '399 partners so far'. Underneath, text reads 'Together, they aim to get 1,046,457 people online'. At the bottom is a grey button with the text 'JOIN US NOW' and a right-pointing arrow.

**180 Pixels Wide**

The 155 pixel wide widget features the Race Online 2012 logo at the top. Below it, a green bar displays '399 partners so far'. Underneath, text reads 'Together, they aim to get 1,046,457 people online'. At the bottom is a grey button with the text 'JOIN US NOW' and a right-pointing arrow.

**155 Pixels Wide**

To see how the widget looks on the internet go to <http://raceonline2012.org/widget>.

Adding the widget to your site is easy, simply select the right embed code below and use it on your site in the position you want to display the widget:

For the 180 pixel wide version:

```
<iframe border="0" frameborder="0" height="250" scrolling="no" src="http://raceonline3.chaptermedia.com/widget" width="180">your browser does not support inline frames or is currently configured not to display inline frames</iframe>
```

For the 155 Pixel Wide version:

```
<iframe border="0" frameborder="0" height="250" scrolling="no" src="http://raceonline3.chaptermedia.com/widget" width="150">your browser does not support inline frames or is currently configured not to display inline frames</iframe>
```

If you have any problems using the widget or need it in a different format, then please email us at [enquiries@raceonline2012.org](mailto:enquiries@raceonline2012.org) and we will get back to you as soon as we can.
